may be the objects for which the grants are to be made. The Deputy Commissioners were also requested to ascertain the needs of the several Panchayets through the Taluk Officers and distribute the amount placed at their disposal among the Panchayets according to the circumstances of each case and to the extent that may conveniently be found possible. This order has been read in the G.O. of 20th January 1927 and the principles enunciated in that order have been incorporated therein. ~~xxx~~

The following reply to the Member who has mooted the question is submitted for consideration:-

The finances of the State do not permit of grants being made in respect of every road and well work that may be undertaken by the Panchayets.

Under the rules in force a contribution of two-thirds of the cost in the case of wells is made ordinarily but in the case of wells intended for depressed classes and in special circumstances wells will be constructed

N.B.—Should routine notes be written on small slip the notes must be copied, or slips pasted on this form

wholly at the cost of the Government in the case of other works the Govt. grant is ordinarily limited to one-half of the cost of the work and the grants will be made for such works or purposes

as the Deputy Commissioners consider
necessary. In special cases Deputy
Commissioners have power to make a
